Great and Useful Invention.

No more Mortality for want of Water.

Sure wealth to Estancieros

By the Robert Apparatus.

Being notorious the immense injury occasioned by the scarcity of water during the long (secas) that afflict the camps of Buenos Ayres, I have determined to dedicate to the Estancieros an Apparatus at once simple and infallible for procuring as much water as they may require.

120 Bordalesas per hour (it seems fabulous) is procured with my apparatus, without fear of at any time its getting out of order.

This machine is worked by one horse and in one day's work can give 4. Bordalesas; that is to say, sufficient water for 20,000 head of cattle.

By these figures can be calculated the immense advantages gained by its use.

Another advantage is the facility of putting it together and taking it to pieces, so as to be able to transport it to any place where it may be necessary to use it, either for watering purposes or others.

GREAT MODIFICATION.

I have made an improvement in my Apparatus, applying a new system which reduces the necessary force two thirds, giving it at the same time more rapidity.

Those interested can see it at Calle Moreno, No. 346 (Henerrado, Paris.)

One sole inspection of the Apparatus will prove to them the superiority of it over any other. ROBERT.

LATEST FROM SAN NICOLAS

GREAT EXCITEMENT

IMPORTANT MEETING

In consequence of the Provincial Government having removed both of the Justices of the Peace, and discharged Colonel Quintana, who, during his five years' residence in San Nicolas, by his good and upright conduct, had endeared himself to the residents, a meeting was convened on last Sunday evening at the theatre. The attendance was surprisingly large; nearly all the householders, merchants, shopkeepers, and estancieros of the place were present. As we have but slight acquaintance in that neighbourhood, we were unable to ascertain the names of the speakers; but if Messrs. Acosta, Dominguez, Saavedra, and Varela, had their ears blazing hot in the evening in question, we should not be surprised at it, as the language used respecting these gentlemen was of such a character as would do credit to Billingsgate. It was painfully evident to the impartial foreigner that the townspeople had been rather harshly used by the Provincial Government, and that the people of San Nicolas knew their rights, and were determined to assert them. The candidate for the coming Provincial elections was named, Sr Acevedo (who, we understand, is an out and out Cocido.) After the business of the meeting concluded, the band of music which was in the theatre proceeded to the Plaza, followed by an an immense crowd. The shouts of 'Viva Mitre and Muera, echoed through the streets, and for about an hour a regular Donnybrook fair business was carried on at the base of the statue of Liberty, in the Plaza If there were any Provincial authorities in San Nicolas, they took good care to imitate the discretion of Sr. Varela, and kept out of the way until the affair blew over. A general feeling of discontent, at the audacious measures of the Provincial Ministers was perceptible, and but for the respect which the people seem to entertain for the National Government, there would have been short work made of the Crudos, if there were any in the town.

The Government, we understand, after removing Dr. Marengo fron the office of Juez de Paz, named another party, who refused to accept office, unless he received five thousand dollars mjc. per month, alleging that as he did not wish *to steal*, he should get a salary sufficient to support him.

The Municipality have resigned, *en masse*, and refuse to act any further, so long as Governor Saavedra has two such ministers as Acosta and Dominguez.

A newspaper is about being started by the Varelas, to be called 'El Amigo del Pueblo.' We are assured that the Municipalities of San Pedro, Arrecifes, and Pergamino, have each promised to give it a subsidy of 500 dols. mjc.; but in San Nicolas it will neither meet with a subsidy nor a subscriber, as the people are hartily tired of this eternal political wrangling, and only wish for peace under President Mitre's Government.

The camps about San Nicholas are covered with grass, and each day new flocks of sheep are arriving from inside. Messrs. Lanus and Co. have purchased 28,000 fanegas of wheat, and it is said will nett $50,000 fuertes on the speculation.

Mr. Armstrong or Carranzos mill is doing a good business and receiving large amounts of wheat from Santa Fe. The Frenchman who owned the flour mill on the Ramallo died suddenly last week.

The saladero of Dr. Segundo Garcia is at present working, but only killing mares. Good sheep are in demand about San Nicolas, and readily fetch from 40 to 45 dollars; a flock of 2100 was sold last week at $40 mjc.

Mr. Luis Booth whose estancia is in the Rincon Ramallo is the principal breeder of rams in the partido; he has about 400 excellent animals on sale at present. Peons on estancias and at sheep puestos are extremely scarce and much looked for.

Sor. Martinez, from Buenos Ayres, is in San Nicolas, buying wool; we hear he has purchase some 150,000 ar. very cheap.

Seven or eight vessels are at present loading wheat at San Nicolas for Buenos Ayres.

Sr. Catana, who keeps a hardware store in the Plaza, is the agent of the 'Standard.' We recommend all our friends who are up in that neighbourhood to pay him a visit.

LATEST FROM ROSARIO.

ARRIVAL OF THE 'PAVON.'

Copper and Prisoners on board.

The 'Pavon' arrived yesterday morning a couple of hours behind her time, owing to a heavy fog which detained her in the Palmas for several hours. She brought down over one hundred passengers, and about a dozen of prisoners from the Rioja, who were taken amongst the Indians.

Considerable excitement was caused Rosario by the decision of Judge Zuveria, condemning the merchants on the Custom House question. It is said that they will appeal against the decree, which was only published on the morning of the departure of the steamer for Buenos Ayres. Several of the leading foreign merchants were thereby deprived of making their customary visit on board.

We regret to say that murders are still the order of the day. Some 3 assassinations occurred during the last week, several arrests have been made, and the police authorities display the most meritorious activity.

A distinguished Italian broker from Buenos Ayres, it is said, is at present in Rosario, purchasing Bolivianos for an English house; but Bolivianos are not to be had.

The Indians at Bahia Blanca.

By a vessel which touched at Isla Verdi, we have the following news:—

A chasque had arrived at Bahia Blanca from Calfucurá and Guaiquil, bringing in Garcia, who had been taken prisoner by the Indians. Galvan had been very active, and recaptured several head of cattle which had been stolen by the Indians. Cacique Calfucura wrote a letter to Llano, stating that he wished to remain on good terms with the partido of Bahia Blanca, and had arranged with another cacique to seize the families of those Indians who had attempted robbery, this being the only way to stop such incursions. He also desires to be kept advised of all robberies, as he does not wish to break the treaties already made. He expresses his ignorance of the whereabouts of the culprit Indians, and avows that he cannot be responsible for their misdeeds, as they live so far away from him. He cautions Llano against the Indian gauchos, who cannot be trusted, and says that he has called the tribes together in order to make them deliver up the cattle stolen from the haciendas. He has sent his brother-in-law, Cañul, to Azul to receive the rations, and also to request that no Indians be allowed to pass without an order. He has sent to Cacique Quetrel to order him to return the stolen property.

This letter would cause suspicion in most men's minds: there is a great deal too much gratuitous kindness to be all depended upon. In fact, Mr. Calfucurá is not a 'good liar;' he enters into too many minute particulars.

This Aboriginal party finishes up his correspondence with a polite request to be presented with a suit of clothes, a hat, and a pair of boots, and promises that if ever he take a poor devil prisoner he won't rob him of his clothes. (It is a difficult matter to deprive a North Briton of his pantaloons.)

The chasque states that Colonel Melcher Costa, who headed the last invasion of Ranquelas, in the province of San Luis, has died from the effect of his wounds.

About 50,000 sheep have lately passed through Bahia Blanca, on their way to Patagones. They belonged to Sors. Aguirre and Murga.

THE ITALIAN OPERA

As we have before reviewed the *mise en scena* of 'Un Ballo en Maschera,' by the Briol Mollo Company, it is hardly necessary for us to say that Tuesday night's opera was unusually good, this being one of the best which the present *artistes* give. We have again to complain of the inconvenience of raising the curtain after nine o'clock, as half the audience gets fagged before the conclusion, and the other half, who have the courage to remain, run the risk of being locked out, on the probable supposition that they pass the night at the Policia, for some slight misunderstanding with the *serenos.*

We regretted to see the house so thin, the audience scarcely numbering 600. It is easy to see that the English patronise the lyric art more than natives do, for there were over a hundred of our countrymen present, including the English Minister and Consul Parish, with their ladies. President Mitre and family set a good example to Argentines, but very few boxes were occupied by native families.

The first act passed off very well. In second, Madame Mollo played and sang to advantage, but we have heard Lelmi sing, 'Che mi fa ridere' better on former occasions. Madame Briol was exquisite with Lelmi, both in voice and action, in the garden scene of act 3: Celestini gave some beautiful solos in the same act. The prettiest *bijoux*, however, of the opera, are 'Tra la la,' and 'Tu non sai,' by Madame Mollo. On the whole, the present company is the best we have seen for years, and if the opera is not well attended, it argues bad taste, on the part of the public, rather than any want of merit of the artists.

The Toasts of the Inauguration.

Previous to the banquet held on Monday, every thing had been arranged in such a manner that no confusion could possibly take place. The invitations were only issued to known respectable people, and not, as on a previous similar occasion, to all the world and his wife, and his wife's compadres. There was one regulation which caused great joy to most of those assembled, and that was 'no politics allowed.'

It is seldom that some of the political folks of this country get anything like a respectable audience to listen to their trite inane remarks, that it would display greater self-denial than most men can boast of, unless strictly prohibited, were they to allow the opportunity to slide.

The list of intended toasts was prepared beforehand, and there is a report current, that the bandmaster received a list of the speakers with strict instructions to play the loudest and most boisterous music if any not on the list, attempted to enlightened the public. The following is the list of the toast.

1st Mr. Parish—'The Argentine Republic; Progress and Happiness'—air—National Anthem.

2nd Brigadier Gen. Mitre to answer this, and toast Queen Victoria'—air—God save the Queen.

3rd, Mr. Thornton to answer, and toast 'Peace and Union amongst Argentines.'

4th. Dr. Rawson to answer, and toast 'Foreign Friendly Powers.'

5th. M. de Becour to answer, and toast 'The Argentine Ministers.'

6th. Dr. Elizalde to answer, and toast 'Immigration.'

7th. Sr Santamaria to toast the 'Godfathers of the Feast.'

8th. Brig.-Gen. Mitre to answer.

9th. Sr. Saavedra to propose 'The Prosperity of the Great Southern Railway.'

10th. Mr. Parish to answer, and toast 'The Government of Buenos Ayres.'

11th. Sr. Acosta or Dominguez to acknowledge this toast.

12th. Sr. Santamaria to propose 'The Provincial Legislature and the Municipality, Home and Foreign, the absent friends of the Railway, the Press, &c.'

There were other toasts which were not allocated to any one in particular, but were left to those who, it was thought, would do them most justice. Mr. Kirk ably proposed the cause of all our griefs and sharer in all our joys—'Woman.'

SIGNS OF THE TIMES.

Truly Buenos Ayres is struggling bravely to deserve the name of the Athens in South America, and if the people would only leave politics to one side, and turn their whole attention to works of peace, she would soon reach such a pinnacle of prosperity as to make it a hard work for other South American States to reach her.

We have already mentioned the beautiful little medallion struck by Señor Cataldi, commemorative of last Monday, and which really augurs well for art in this country. Joined hand in hand with engraving, comes the sister art, painting, but in a different garb from that in which she was known to the ancients. Instead of his pencils and colors she is now introduced to us by vile-smelling chemicals, but purified in a manner by her preliminary bath before she appears dressed for company. Señor Bartoli has taken four beautiful views of the ceremony of Monday, by means of the photograph. So that English share-holders may easily, while sitting by their own firesides' see the ground over which their bantling is to run.

An elder sister, although still but young, is progressing wonderfully, and we may soon expect to see her make her debut from the finishing school of Messrs. Murray and Mills, and when once she receives a few small presents of ornaments, such as carriages and locomotives, from her kind masters, she bids fair to be the belle of the day. At present, owing to her sweet obliging *taking ways*, she is the means of *transporting* more than a thousand persons daily. And we hope to hear that all her English guardians' fondest wishes have been realised.

In her infancy she bid fair to do well, but now her temporary sponsors in this country are quite astonished at the talents she has lately displayed. She is as far advanced as the last book of San Fernando, and expresses a wish to continue her studies on the Banks of Lujan. This of course will be charged amongst the extras; and we only wish our daughters' extras were one half as cheap and useful.

MONTEVIDEO.

We have the papers of Sunday 6th inst. Letters from Paysandu 2nd March, complain that Col. Lenguas uses arbitrary power, having suspended a paper called 'La Situacion' which was nevertheless friendly to Goverment. That town suffers very much from the irregular steam-traffic: Col. Gomez is fortifying the suburbs in expectation of a new attack from Flores. Pinilla, the chief of Police, left same day for Montevideo.

On the 2nd Flores was near Canelones, and made a diversion towards Cerro Berdum, but on the approach of the Government troops he concentrated his forces. Instead of scattering his men as hertofore, he is now very cautious, and has taken up a strong position some 14 leagues distant. Servando Gomez writes that he is at Barra de Casapa and cannot overtake the enemy who makes forced marches towards the Sierra, being now within a league of Minas. Despatches from Salto, Feb. 27th, announce the arrival of reinforcements from Tacuarembó, raising the garrison to 600 men. Caraballo was near Paysandu, which gave rise to the idea that Flores meditated passing the winter near that town. Col Rafia scours the department, at the head of a good force: several deserters from Flores came to make their submission Caraballo was near Arroyo Grande with 180 filibusters. Col. Pinilla is recovering from his wound on the hand. Dates from Rocha 2nd inst. state that Olid is much better: he had received a bullet between the third and fourth ribs, and is well attended in the estancia of Don Juan Rodriguez which is in Brazilian territory, being guarded by 60 men provided by the chief of the frontier.

Varas at the head of 40 rebels was near Fray Bentos, but a detachment was sent from Paysandu to sieze him. Waldino Urquiza had arrived at Mercedes with 100 men; after a slight illness, he prepared to join head-quarters N. of Rio Negro.

Col. Valdez writes from Canelon Grande, 2nd inst., that the rebels were making a rapid retreat from Ocampos to Minas, being pursued by the army whose advanced posts reached to Pineyrua. Capt. Vasquez writes from Tala same date, that he had sent two parties to pick up stragglers in the direction of Larrañaga, the Blanco troops being encamped at Chamiso.

The new President has declared the port open, and permitted the return of Messrs. Carreras, Castillo and Basañez: it is expected he will extend this favor to Messrs. Estrazulas, Carabia, and Vasquez. Col. Perez has resigned his post as War Minister pro tem. On the 3rd. Flores was at Arroyo de Los Chanchos, and the Blancos passed Arroyo Soldado in Minas, for the Sierra Grande, the vanguard being under Muñoz and Laguna who picked up sixty stragglers. General Lamas received the news of his appointment as War minister: his reply is not know. The rebels surprised a military train near Durazno, destroying whatever they could not carry off.

D, Adolfo Bourgoing has prosecuted the *Pais.* The Mauá Bank advertises that the transfers of Bonds of the Anglo-French debt must be made between the 16th and 31st inst.

EDITOR'S TABLE.

We are happy to hear our countrymen are fast getting hold in Santa Fe. An enterprising Wexford man has purchased a magnificent estancia about 18 leagues from Rosario at the very moderate price of three thousand Bolivian dollars per square league.

Sr. Don Estevan Rams y Rupert, the celebrated Salado explorer, arrived in town yesterday. We salute this distinguished Argentine, and learn with the greatest pleasure that the works are progressing favorably. Mr. Rams informs us that our cotton seed has been all planted in Santiago del Estero, and come up beautifully, and that considerable attention is now being paid to cotton growing in every part of the interior.

The splendid saladero of Messrs. Señorans and Co, is at present working; we hear that over 15,000 animals have been killed there recently. Sr. Señorans arrived in town yesterday and reports most favourably on cotton.

Consul Hutchinson, of Rosario, returns to the scene of his diplomatic labours to-day, having come up to town purposely to assist at the celebrated inauguration of the Great Southern Railway. We bid him a cordial farewell, and wish him safe home to the Rancho Britannico.

The works of the Argentine Central Railway have been recommenced, and the engineers are now occupied in making the culverts along that part of the road which has been finished by order of the Government.

A terrible fight occurred yesterday morning on board one of the whale-boats in port, arising out of a struggle for some passengers' luggage. Some soldiers who were on board the Pavon guarding the prisoners who arrived from Rosario, rushed on the combatants with drawn swords, and nearly cut down both of the whale-boat men.

Messrs Henry A. Green and Co., we perceive, have advertised for sale the doors and windows, besides sheds, bricks, &c., which are on the ground upon which the principal station of the Great Southern Railway will be built.

The rapid rise in ounces has caused quite a sensation in the country districts, farmers begin to realize the serious loss which these fluctuations are causing. A flock of sheep which last year was worth £800, is now, although selling at precisely the same price in paper money, worth hardly £750. This is so serious a loss to men who have to undergo every species of hardship to gain an independence, that farmers are now beginning to think the proper way to sell sheep is in specie, and have done with the rotten paper currency, which seems to be drifting fast to zero.

We learn that the Bishop has appointed the Rev. Mr. Kavanagh to the parish of San Pedro.

The first battalion marched yesterday at 8.30 a.m. for 25 de Mayo. They presented a very soldier like appearance, and it is to be hoped will guard our frontier more effectively than of late.

We have to salute the Rev. Mr. Carter, American Missionary just arrived, who did us the favour to visit us yesterday in company with the American Pastor. We wish him every success in his Christian labours, and a long residence amongst us.

Scandalous Counterfeiting.

Thousands of Zinc Bolivianos.

We caution our readers against receiving Bolivian dollars without scrutinising them, as some thousands of beautifully stamped zinc Bolivians are at present in Rosario, and the authorities have been unable to discover the 'bogus mint.' Genuine Bolivian dollars are very scarce in Rosario; and it is thought that an ingenious French barber, who has his friends in Buenos Ayres, perceiving the great dearth of this deteriorated coin, considered that it would be highly advantageous for the commercial community to get this zinc coinage in circulation.

It requires considerable experience to be able to detect the spurious from the genuine, as the latter has no 'jingle,' whilst the former sounds as well as the best half crown, as we understand that there are heavy zinc remittances about to be made, by the shaving counterfeiter, both to Buenos Ayres and Montevideo.

RUMOURED RESIGNATION.

It is current in Rosario, that in consequence of the immediate departure of Governor Sarmiento for the United States, as Argentine Minister, Mr. Rickard, the manager of the San Juan Mining Company, purposes immediately resigning and returning to Europe. We should regret sincerely that the report be true, as we believe the Company would prove a great Argentine bubble should Mr Rickard leave it—still as it is currently talked of in Rosario, we think it right to give our readers the *on dit.* It appears the San Juan stockholders refuse to accept Mr. R.'s bill of expenses in Buenos Ayres and in Europe. Owing to the state of the country the quartz is very scarce, and the Company at present working in San Juan cannot obtain sufficient to keep the works going

Great oaks from little acorns grow

Few men can foresee the results of their actions and thoughts. How seldom have great inventors lived to see the full development of their ideas. The thought, the germ of some truth, which is to effect a revolution in society, or in the physical or moral condition of the human race, springs forth from some active brain, but it is only after the lapse of years that its full importance is appreciated. Such thoughts or ideas must generally pass through many minds before they reach the acme of their perfection. Occasionally, however, a truth springs forth at once, full grown, like Minerva, from the brain of Jove, and happy is the inventor who wo lives to see the realization of his darling project. Among the few mortals thus favoured is Professor Thomas Holloway, who, about a quarter of a century since, enunciated the beautifully simple theory upon which his practice is founded. His Pills and Ointment were placed before the world, and he lives to see their beneficial results There are many thousands we are told, who are indebted to him for health, without which life itself is but a burden. Holloway's theory is simply this:—He says there is but one way of repairing a watch properly, or any other piece of mechanism, nor is there, he says, more than one true system required in treating the animal machine. Most people know how food is digested, and that the liver is always at work in distilling certain fluids, called gastric juices, which are carried into the stomach, and without whose proper action upon what is eaten or drank, the process of digestion could not go on. Holloway's plan is to combine a compound medicine which would be so suited to the action of the liver and stomach as to regulate their functions in a proper manner. In this there is very little mystery, and, perhaps, but little difficulty; but that he has hit upon the right ingredients, and their proper quantities and combinations there can be but little doubt. His Pills do their work so effectually that they have become household words, not only in this country, but in most other parts of the globe. We do not propose to advocate their use, but merely to state facts. And, we say, he is either the greatest quack that ever lived, and that the whole human family is deceived by him, or that he has accomplished much that is desirable; we, therefore, leave this question to be decided by others; but until we hear that his doctrine is false we must conclude that his Medicines really possess very extraordinary medicinal properties.—*Massachusets Advocate.*

THE KEANS IN AUSTRALIA

Despite the rising prices and other drawbacks, the Keans have created quite a *furore*, and the theatre has nightly been crowded to excess. In one week over £1500 has been received for admission, a sum never before equalled in the colonies. Their reception has been most enthusiastic. A most successful season was closed on Saturday evening last, and Mr. and Mrs. Kean left on the following Monday for Sydney. On their return they will visit the goldfields, and in all probability Tasmania and Adelaide. Since his arrival in the colony Mr. Kean's health has been much improved; they will, it is said, remain several months here. At the other Melbourne theatre Mr. Barry Sullivan, the lessee, has been bidding high for popularity, has been running the same pieces as the Keans have been performing, and has thus challenged criticism—which, on the whole, has not been favourable.—*Melbourne Letter, Nov. 26.*

MISCELLANY.

MAKING READY.—The Copenhagen journal, 'Faedrelandet,' publishes 'a telegram from Norway,' from which it appears that the war material of that country is ordered to be completed, and that subaltern officers are to be trained. This is apparently another indication that Sweden has by no means entirely abandoned her intention of taking, in case of need, an active share in the menaced Continental war. Denmark is still preparing with energy for defence. Sixteen thousand troops of the reserve are to be quartered in Copenhagen; the strong system of defences at the Dannewerk is being powerfully strengthened, and is held by the Danish troops, to the number of nearly 16,000; about 16,000 more are in second line at the town of Schleswig, and all the military class above the age of thirty-five have been called out for service. On the Eider, the state of matters remains unaltered.

THE WEIGHT OF MR. THACKERAY'S BRAINS!—It is reported that three surgeons, Mr. Thackeray's intimate friends, made a *post mortem* examination of his body on the day of his death. They had the curiosity—and the coolness—to dissect his head and weigh his brain. It was found to be of the enormous weight of 58½ ounces—far, very far, above the average of ordinary men.—*Court Journal.*

THOMAS FRANCIS MEAGHER.—General Meagher's resignation, sent into the War Department some months ago, and accepted at the time, has been cancelled, and the general commission of Brigadier General will date back to his original appointment. This will give him precedence over several generals now in the field. It is reported that the general has been nominated a Major-General—*New York Tablet.*

Well founded apprehension is felt for the fate of the Annamite Ambassadors, who embarked a month ago on board the Spanish war-ship Terceira, for Egypt; no tidings of that craft have been heard of in any Mediterranean port, and the foundering of the steam-packet Atlas is collaterally remembered.

Her Majesty still continues to watch with the liveliest interest in the progress of the work at Frogmore for the mausoleum of the late Prince Consort Notwithstanding the severity of the weather, she pays daily visits to the spot, and remains for some time within the building. Baron Marochetti, the eminent artist who is commissioned to execute a life-sized statue of the late Prince, to be placed in a reclining position on the tomb, has been directed by his royal patron to execute a statue of herself to be placed on the adjoining monument. The material of both statues is to be bronze, and the model of that of the Prince is in a forward state. The mausoleum, when completed, will cost upwards of £70,000. Her Majesty has expressed her desire that she may be interred by the side of the late Prince, in the tomb which she is now preparing.—*Letter in Belfast News-Letter.*

EMIGRATION FROM THE CLYDE.—The emigration from the Clyde has made remarkable progress during pro gress during the past few years, and Glasgow is now the general port of departure for Scottish emigrants. The consequence is that the means of communication between the Clyde and foreign ports have been greatly improved. There are now two lines of steamers between the Clyde and Canada and New York, comprising six first class steamers: and we observe that the Clyde emigration to Canada exceeds even that of Liverpool. There are also two regular lines of passenger ships to Australia; and last year Messrs J. Paines and Co of Liverpool, sent three of their Black Ball Liners round to the Clyde, and these carried away 600 passengers for Southland. The following is the total emigration to the various colonies:—2,700 for New Zealand; 500 for Queensland; 20 for Melbourne; 20 for Geelong; 15 for Port Natal; 3 for Adelaide; 3,500 for Canada; 320 for Portland and New York; 10 for Halifax; 45 for South America; 40 for Demerara; 20 for Trinidad; 12 for Samaica; 25 for Calcutta; 12 for Bombay; 34 for other parts of the East Indies, and 40 for various other parts. Total, 7,410 passengers.

The island of Monte-Christo, which owes its celebrity to Alexander Dumas' popular novel, has just been chosen by the Italian Government as a penal settlement.

HOSTILE MEETING.—On the arrival of the steamship Etna from Liverpool on Friday, a lady and gentleman—her nephew proceeded out in the tender Arran Castle, to meet a 'friend,' believed to be in the Etna. Having reached the vessel, a search was made for the 'friend,' who was discovered, and, against will and strength, was placed in the tender. No sooner had the trio met than the fiercest discussions began, the lady and 'friend' using their best endeavours to abuse each other. In fact, the gentleman was no other than a husband absconding with some £1500, and the lady his anxious wife, who had travelled from their mutual home in London—not for him, she said with warmth, but for her money. They were a pair of self confessed bigamists.—*Cork Examiner.*

It is said that Kossuth has had an interview at Turin with the Minister of Finance, who strongly counselled him to drop his agitation for a revolution, as it would clash with the intended operations of Italy.

LOCAL EVENTS.

The Inauguration.—Braham, the singer, was in the habit of pronouncing the word 'enthusiasm' as 'tussymussy,' and we have even heard one of our priests spelling the name of a Welsh village something like Bettycedws, which he called Bettycumeuss these two names were almost unintelligible: but on reading over the account of the Southern Railway inauguration in one of our native colleagues we find our worthy Consul called Pauils and Parih, other gentlemen are casually mentioned as Peto Betto and Keik. Should those gentlemen recognise their own names, they are well fitted for posts in the dead letter office, or, what is equivalent, to arrange letters that come, steamer after steamer, for our Milesian brethren, as some of the addresses would require the talent of a Colonel Rawson, skilled in hieroglyphics, to make them out.

Sold—The other evening we took up a native paper to wile away a few moments, and our eyes resting on a paragraph headed 'El partido 25 de Mayo,' we thought to ourselves that, having being engaged in chronicling acts of peace, we would find a slight change in reading of the sanguinary doings of the savages in that district. We lighted a cigar and settled ourself down comfortably to sup our fill of horrors, when we found ourselves completely sold, as there was nor a single word about Indians, but a long pottering account of some Spaniards having taken an active part in the blessed elections in that partido. When *shall* these elections be finished? Judging from appearances they will be shelved somewhere about the Greek Kalends. And talking of the Indians, the news of their onslaught coming so soon before the glorious 7th March might almost make one suppose that the two extremes, of peace and war meet in this land, and that with a little alteration Byron's poem might be adapted to the Argentine provinces—

Where grew the arts of war and peace,
Where Parish rose and Mitre sung, &c.

(Perhaps 'Cosmopolite' could get some of his Shakspearian brethren to improve upon the remainder of the lines).

Troops for the Frontiers—The 1st of the line are under orders to march to-day for the 25th de Mayo. We sincerely trust that they may be now fortunate than their predecessors, and that they will have learned experience from the late awful massacre, and be constantly on their guard.

One hundred Immigrants—We are happy to assure General Mitre that we have already ensured a part of his wish, for 50,000 immigrants. Our report of the Inauguration was struck off in 1600 copies, most of which will be sent to Europe. Now, the Americans suppose *six* readers to each paper, which will give in round numbers *ten thousand*, and at a moderate calculation we may safely say *one per cent* (or 100 persons) will be so taken with Buenos Ayres as to come hither at once.

Chivilcoy.—The inhabitants of this district have appointed a committee to collect funds to purchase 1,000 muskets for Garibaldi.

G. Southern Railway.—This Co. advertises the sale of a quantity of bricks, doors, windows &c. on the site of the recent festival. For a second time we remark these *Avisos* are limited to the native papers, although they may be interesting to English readers.

Behind Time.—Our colleagues' report yesterday of the Inauguration is what they call *fiambre*, being 36 hours after date: we were only 12.

St Francis church.—The plans of this structure, in Montevideo, have been laid down before the authorities: the expense not to exceed $100,000.

Tucuman and Salta.—The 'Ferro carril' of Rosario, under date of 6th inst., says—"Yesterday, perhaps the largest troop that ever left Rosario, started from this for the provinces. *Messrs.* Jose F. de Paz and Co. despatched for Tucuman and Salto a troop of 40 waggons, with 300 bullocks and 56 peons. These waggons will be two or three months on the road." The same paper recommends the formation of a body of 100 men to protect Rosario from the evils caused by the vagrants who swarm in the environs of the town. The same troops might also be useful in repelling the inroads on the nearer frontiers.

Those who live in glass houses should not throw stones—One of our native colleagues, speaking of the news brought by the last mail from Chile, grievously laments the dearth of news in the public newspapers of that republic—'The Chile papers say nothing.' And yet our Argentine friend, pluming himself on his great originality, in the same column relates that frightfully old Joe Miller of a conversation between two Argentines (save the mark!) about the relative utility of the sun and the moon. There is not a schoolboy in Great Britain who does not know that it was Japhet who made the remark to Ham when their old papa was lying in a state of beer. Letting alone the staleness of the joke, hang the fellow's impudence! to commence the story with 'Two paisanos were disputing in a pulperia!'

Pleasant place to inhabit.—The 'Litoral' of Parana says that in La Paz there have been other two murders, a confitero and a Sor. Ferreira. In Victoria, scarcely a day passes but that some corpses are dug up by the dogs. who during the silent hours of night hold small supper parties off the provisions thus supplied.

New Communication between Chile and the Argentine Provinces.—The Ferro carril of Santiago of 5th Feb. has the following:—"Last week the two engineers, Don E. C. Dubois and Don Juan Thorndyke, commissioned by the enterprising contractor D. H. Meiggs, started from this to reconoitre the Cordillera to the south of the province of Colchagua, where, it is asserted there is a pass to the Argentine Provinces, and which offers every facility. The engineers are accompanied by a person very well acquainted with the country, and who says that a cart-road and even a railway can be made at that spot. Should such be the case, we may soon expect to have a good road finished, when we take into consideration that Meiggs is at the head of the undertaking."

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

ALL DISORDERS AFFECTING THE LIVER, STOMACH AND BOWELS.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation and all the many maladies resulting from disordered stomach or bowels. In a disease it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

WEAKNESS AND DEBILITY, NERVOUS IRRITABILITY

The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

OLD COUGHS, COLDS, AND ASTHMATICAL AFFECTIONS.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effective remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled coughs and colds, but asthma of many years standing, and even when patients were in so bad a state as to lie down on their beds lest they be choked by phlegm.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic Doloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause.

Sold at the Establishment of Professor Holloway, 244, Strand (near Temple Bar) London, and by all respectable Druggists and dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.

HOLLOWAY'S PILLS.—Furred Tongue, Tainted Breath.—No personal disadvantages can be more annoying than these disagreeable afflictions, which are quickly removed by Holloway's Pills. Their powerful cleansing properties will soon rectify impaired digestion, and take away all its vexatious symptoms. When the constitution, from climate, excess, or other causes, is enfeebled a regulated course of this medicine will effect a complete change throughout the system, and restore to the worn-out invalid that ease and strength which he thought had flown for ever, so long had he been a stranger to both. An occasional course of these justly celebrated Pills is recommended to all feeling "ill at ease," who, indeed, can rarely point out the origin or seat of their morbid sensations.

SAVINGS BANK
BANK MAUÁ & Co.
No. 103 calle de Cangallo. —
BUENOS-AYRES.

The immense advantages of *Accounts Current* are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence

The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *reserve fund* in case of *need, sickness* or *old age*, instead of spending them in the immoral gambling, in lotteries and other frivolities

The Bank of Mauá and Co. of this city following the example of their firm in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 calle Cangallo from 9 a. m. to 3 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn.

The depositor is permitted at *any time* to withdraw the *whole* or *part* of the sum deposited, in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres September 19th 1863.
p. p. Mauá & Co.
WILLIAM LESLIE.

CONDITIONS.

1st. The Bank receives at interest any sum from *Twenty five dollars currency* or *one silver dollar* upwards.
2nd. The interest allowed is *six per cent* [6 p$] per annum which is liquidated every six months
3rd. The depositor can at any time retire the *whole* or *part* of the money deposited.
4th. Once the amount deposited exceeds *Twenty five thousand dollars currency* or *one thousand dollars silver* the depositor if he wishes can open an *account current* according to the rules established by the Bank.
5th. In case the depositor loses his Pass Book it can be replaced by another on paying *twelve dollars currency*, and advertising the loss in the public newspapers.

ENGLISH GRAMMAR SCHOOL,
CALLE LARGA DE BARRACAS
Dor.—Mr. Pongerard, of the London University College.

This Establishment, which from its foundation has been patronised by the principal British families of Buenos Ayres, is an exact reproduction of an English School, where a sound commercial education is combined with the acquisition of the French and Spanish languages is imparted to the pupils, and based upon the same system as in all first class European institutions of the kind.

An ever-watchful and constant supervision, and a strict maintenance of order and propriety, are a sufficient guarantee that the morals and behaviour of the pupils are carefully attended to.

The different branches taught in the English Grammar School comprise the English, French and Spanish languages, History, Geography, Arithmetic, and Book-keeping in all its parts, Writing, and Religious Instruction.

Extra branches, such as Latin, Mathematics, German, Music and Drawing are also taught by special masters.

The situation of the English Grammar School, in one of the most delightful Quintas of the Calle Larga of Barracas, at the very gates of the city, is one of the most healthful and picturesque of the environs of Buenos Ayres.

For particulars apply for prospectuses at the Standard Office, Calle Belgrano 71.
